

et

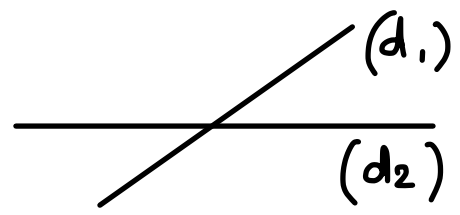

parallèles

et

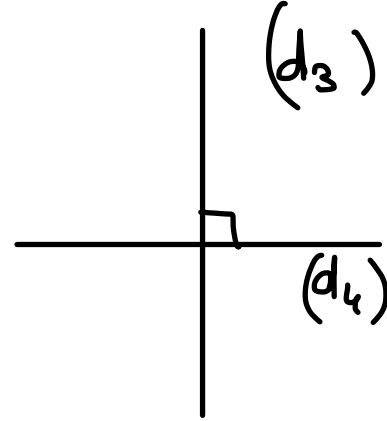

perpendiculaires

(on parle de droites).

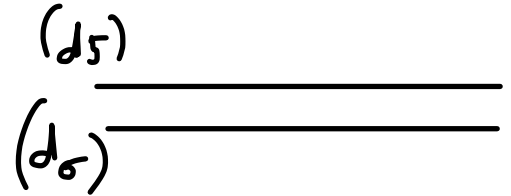

sécantes: deux droites qui se coupent en 1 point

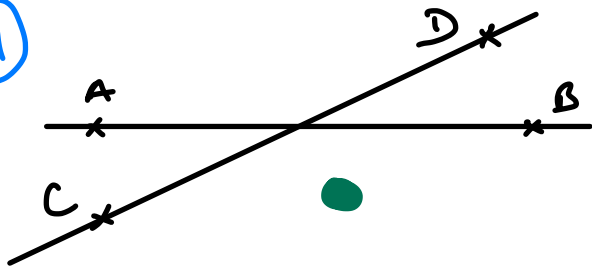

perpendiculaires: deux droites sécantes qui forment un angle droit

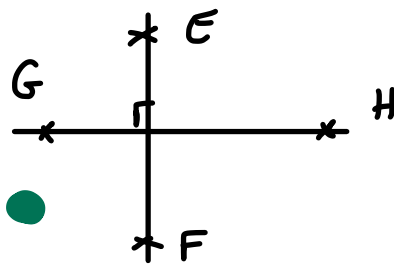

parallèles: deux droites qui ne sont pas sécantes

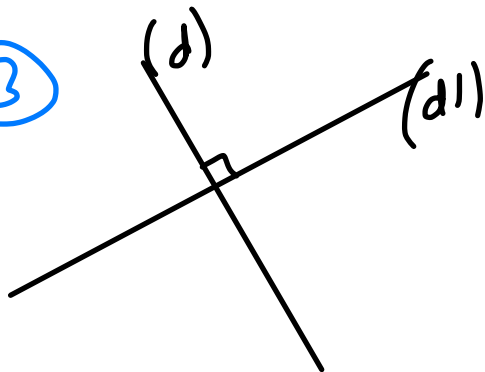

①

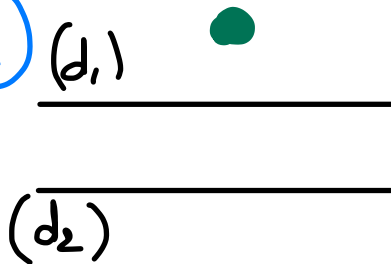

②

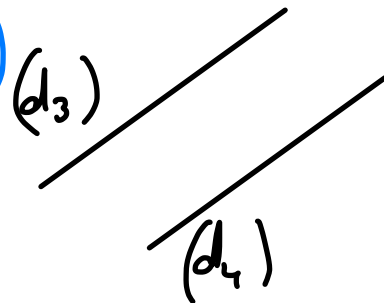

③

④

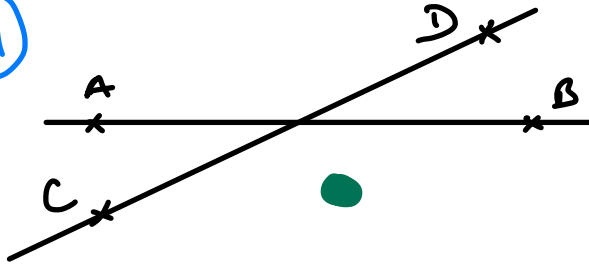

⑤

a) recopier à main levée

b) faire 1, 2, 3, 4 à la règle
+ faire une phrase

①

Les droites A, B, C et D sont sécantes. ~~X~~

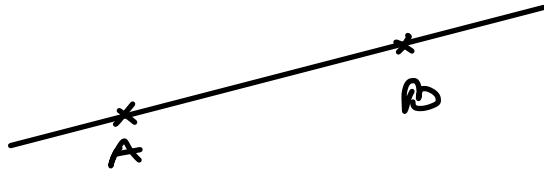

Les droites (AB) et (CD) sont sécantes. ✓

[AB]

AB = 3cm

[AB] = 3cm ~~X~~

(AB)

(AB) = 3cm ~~X~~
