0,5067 * 12,501

(1) 1,24 × 1,2

2 4 8 1 2 4 0

$$0,5067 \times 12,501 = 6,3342567$$
 10000
 $12501 = 63342567$
 10000
 $12501 = 63342567$

2. Placer deux points S et T tels que le segment [ST] soit un diamètre de ce cercle.

=> rayon 2,5 cm!

Un diametre est un regment qui relie 2 points du cercle en passant par le centre.

Un diametre cot deux fois plus grand qu'un rayon.
